Drill maths: Object score 1,950,000 failed / 15,000,000 checks → 13.0% fail → 87.0% pass. The 6 dimension bars are the six Account rows from the dataset. This same object view is Mock B's Layer 2.

Rule Definition

Rule	parent_customer_id must exist in Customer
Dimension	Relationship Integrity
Type	ref_integrity
Checked / Failed	2,500,000 / 550,000
Est. fix	5 min/record · Manual

This is a **hard gate** in Mock C's readiness model — orphan parents break migration sequencing.

Failed Record Sample

drill to the row

SBG_ID	PARENT_CUSTOMER_ID	ISSUE
ACC-10241	CUST-88301	NO PARENT
ACC-10255	CUST-90114	NO PARENT
ACC-10388	(null)	MISSING FK
ACC-10402	CUST-77052	NO PARENT
